AVIATION

LEADING THE WAY IN  
ENVIRONMENTAL  
MANAGEMENT

## AVIATION

- ◆ Wildlife Hazard Management Plans
- ◆ Bird and Wildlife Strike Mitigation, Risk Assessment and Management
- ◆ Airside Lethal control of high risk bird and vertebrate pest species
- ◆ Airside Reporting Officer
- ◆ Ecological assessments
- ◆ Ibis fly in / fly out counts
- ◆ Risk assessments on and off airport
- ◆ Bird Dispersal

Biodiversity Australia is an industry-leader in airport wildlife management and vegetation management.

We provide consulting and strategic project management throughout the lifecycle from environmental and risk assessments, through to hazard mitigation and management. Considered thought-leaders in aviation environmental management, our aviation specialists regularly speak at professional aviation forums.

Our aviation staff have all obtained an ASIC for security purposes, and have undergone a humane destruction and accreditation course if conducting lethal control activities. Since being founded in 2002, we have become a trusted environmental provider in the aviation industry throughout Australia.

Biodiversity Australia is a fully licenced and accredited consultancy with ISO certifications in Environment, Quality and Safety.

Biodiversity Australia is a 100% indigenous-owned environmental consultancy that is a Supply Nation Registered and Certified Supplier.
