Mining and Energy

CREDIBLE, ROBUST, SCIENTIFIC.

We provide credible and robust ecological surveys to comprehensively inform impact assessments. Our team has extensive knowledge of threatened species and ecological communities throughout Australia and is experienced in performing all aspects of aquatic/marine and terrestrial flora and fauna survey from the site to landscape scale.

EXPERTISE IN ECOLOGICAL MANAGEMENT.

Our team of experienced and broadly skilled Ecologists have a thorough understanding of the complexities involved in maintaining and managing biodiversity.

WHY Biodiversity Australia?

- Our mobile data, GIS system and systematic reporting techniques integrate digital data, photo point monitoring, GPS and high level GIS mapping to create very high quality outputs.
- Our team undergoes continual Professional Development (CPD) to maintain up-to-date technical skills and knowledge of processes, technology and legislation.
- Our depth of knowledge and experience enables us to help clients negotiate their way through complex State and Commonwealth environmental legislation.

Biodiversity Australia is a 100% indigenous-owned environmental consultancy that is a Supply Nation Registered and Certified Supplier. Biodiversity Australia is a fully licenced and accredited consultancy with ISO certifications in Environment, Quality and Safety.
