AUSTRALIA

LEADING THE WAY IN ENVIRONMENTAL MANAGEMENT

Sustainable partnerships dedicated
to achieving ecological and
economical balance

Sustainable partnerships for Ecology, Aviation, Fauna and Vegetation management

Biodiversity Australia is a leading national environmental management consultancy providing specialist ecological management solutions for the Resources and Infrastructure, Government and Defence, Aviation and Residential sectors.

Specialist environmental consulting services

Founded in 2002, Biodiversity Australia has extensive experience in the management and delivery of specialist environmental consulting services for small and large-scale projects throughout Australia. Our dedication to environmental sustainability is matched by our desire to refine and advance our procedures and services to ensure we remain at the leading edge of our industry.

An indigenous owned business committed to sustainability

We are dedicated to providing real opportunities for indigenous people and companies to contribute to environmental management in a sustainable way that captures indigenous knowledge and develops capacity.

Our specialist services

ECOLOGY

Improving the health of our ecological systems and delivering projects that achieve exceptional results.

FAUNA MANAGEMENT

Managing fauna solutions to minimise risks to native wildlife and controlling vertebrate pests and responding to local issues caused by native wildlife.

VEGETATION MANAGEMENT

Restoring the ecological balance through regeneration, rehabilitation and solutions that enhance value.

AVIATION

Delivering solutions that meet the niche requirements for airport management and aviation safety.

A wealth of expertise in ecological management

We have a thorough understanding of the intricacies involved in maintaining and managing biodiversity, and a proven ability to achieve long term results for our clients.

Industry Sectors

Our diverse skills and broad experience enables us to offer innovative and integrated environmental management services across a range of industries.

RESOURCES AND INFRASTRUCTURE

We have extensive experience working with oil, gas and mining companies and have successfully delivered environmental solutions for urban development projects, the construction of roads and infrastructure and the industrial and commercial sector. We manage the full project lifecycle from environmental assessment through to management of impacts during development, monitoring and compliance during operations and rehabilitation after completion.

GOVERNMENT AND DEFENCE

We provide specialist environmental services to Local, State and Federal Government Departments Australia-wide, including fauna conservation and management, pest management and vegetation management and restoration. Biodiversity Australia is also Registered and Certified with Supply Nation with expertise in managing the unique requirements of Government at all levels.

AVIATION

We are industry-leaders in managing requirements for airport safety through airport wildlife control and vegetation management, providing consulting and strategic project management, from environmental and risk assessments, through to hazard and bird strike mitigation. We also participate as thought-leaders in professional forums within the Aviation sector.

RESIDENTIAL

Our Residential team provides professional and experienced pest control and emergency response services to residents and body corporates in established estates and regional locations. Biodiversity Australia Residential services include vertebrate pest and wildlife removal as well as rescue and relocation, ensuring the balance between humans and wildlife is effectively managed.

LEADING
THE WAY IN
ENVIRONMENTAL
MANAGEMENT

As one of Australia's leading environmental management and consulting specialists, Biodiversity Australia partners with organisations to deliver solutions for the sustainable management of our unique Australian ecology, while balancing economic priorities.

We are a fully licenced and accredited firm with ISO certifications in Environment, Quality and Safety, delivering best practice environmental project and management strategies across diverse industries and sectors.

Biodiversity Australia is a 100% indigenous-owned environmental consultancy that is a Supply Nation Registered and Certified Supplier.
